Subject: RE: Perkins-Coie FR Notice language

OTAQ Email:

The U.S. Environmental Protection Agency has received a request under the Freedom of Information Act (FOIA) for records containing information related to registered producers of landfill biogas under the Renewable Fuel Standard (RFS) Program. This FOIA request is attached. The records requested include those containing information on: the location of each digester and landfill where biogas is sourced for production of compressed natural gas or liquified natural gas that has been registered with the EPA to generate RFS RINs ; the location of all parties selling, delivering, or using transportation fuel produced from the biogas; identification of all commercial pipeline systems or other transportation methods used to transport biogas from production to transportation use; any contractual arrangements among parties to ship/transport biogas, and the chain of title of the biogas and environmental attributes from the location of biogas production to the location where it is used as transportation fuel.

We believe it is possible that the Engineering Review (ER) or Reviews, and any updates, addenda and/or attachments (e.g. contracts, maps, etc.) to the ER or ERs, submitted on behalf of your company pursuant to RFS registration provisions in 40 CFR 80.1450, may contain information responsive to the FOIA request.

By your response to this email, please indicate whether you wish to assert a

confidential business information (CBI) claim with respect to any portion of any ER or any addendum, update or attachment to an ER, that your company has submitted to EPA. If you decide to such a claim the EPA will temporarily treat the ER you identify, and its updates, attachments and addenda, as confidential pending further investigation by the EPA. Please be advised that as part of such further investigation EPA is likely to request (in a subsequent communication) that you substantiate any CBI claim. If you do not assert a timely (see below) CBI claim with respect to any portion of an ER or its addenda, updates or attachments, as described above, those records may be released to the requestor without further notice if EPA determines that the records are responsive to the FOIA request.

You have been identified by EPA as the responsible corporate officer, under the FOIA regulations in 5 U.S.C. 552. Any CBI claim your company wishes to assert must be brought to the EPA's attention (by response to this email) no later than the close of business on the third working day from the date of this notice. If you have any questions regarding this matter, please contact Kurt Gustafson at 202-343-9219.

Subject: RE: Perkins-Coie FR Notice language

Hi Madison,

Ex. 5 Attorney Client (AC)

Ex. 5 Attorney Client (AC)

Ex. 5 Attorney Client (AC)

I'm including an excerpt from the regs for your reference:

(c) Determining existence of business confidentiality claims. (1) Whenever action under this paragraph is required by paragraph (b) (2) of this section, the EPA office shall examine the information and the office's records to determine which businesses, if any, are affected businesses (see §2.201(d)), and to determine which businesses if any, have asserted business confidentiality claims which remain applicable to the information. If any business is found to have asserted an applicable claim, the office shall take action under paragraph (d) of this section with respect to each such claim.

(2)(i) If the examination conducted under paragraph (c)(1) of this section discloses the existence of any business which, although it has not asserted a claim, might be expected to assert a claim if it knew EPA proposed to disclose the information, the EPA office shall contact a responsible official of each such business to learn whether the business asserts a claim covering the information. However, no such inquiry need be made to any business-

(A) Which failed to assert a claim covering the information when responding to an EPA request or demand, or supplying information on an EPA form, which contained the substance of the statements prescribed by §2.203(a);

(B) Which otherwise failed to assert a claim covering the information after being informed by EPA that such failure could result in disclosure of the information to the public; or

(C) Which has otherwise waived or withdrawn a claim covering the information.

(ii) If a request for release of the information under 5 U.S.C. 552 is pending at the time inquiry is made under this paragraph (c)(2), the inquiry shall be made by telephone or equally prompt means, and the responsible official contacted shall be informed that any claim the business wishes to assert must be brought to the EPA office's attention no later than the close of business on the third working day after such inquiry.

(iii) A record shall be kept of the results of any inquiry under this paragraph (c)(2). If any business makes a claim covering the information, the EPA office shall take further action under paragraph (d) of this section.

(3) If, after the examination under paragraph (c)(1) of this section, and after any inquiry made under paragraph (c)(2) of this section, the EPA office knows of no claim covering the information and the time for response to any inquiry has passed, the information shall be treated for purposes of this subpart as not entitled to confidential treatment.

Joan

Thank you. I left you a voice mail, but here is the gist.

Ex. 5 Attorney Client (AC)

Let me know if this can work. I'm meeting with the group this afternoon and wanted to provide some guidance.

Ex. 5 Attorney Client (AC)

Please provide your response to me by COB 05/08/15. If you need more time to make a determination, please let me know by 05/04/15 and provide a date by which you can reply.

Thanks!
